

Smart Mining

– towards automation and interoperability for safety and productivity gains

Challenges

Opportunities

A person wearing a high-visibility orange safety vest with reflective yellow-green stripes is seen from behind, sitting at a control desk. The desk is equipped with two joysticks, a keyboard, and a mouse. In front of them are several computer monitors. The top monitor displays a 3D wireframe model of a mine layout. Other monitors show various data dashboards and camera feeds. The scene is dimly lit, with the primary light source being the screens and the person's vest.

Epiroc, together with mining companies, implements easier, safer and more efficient ways of working.

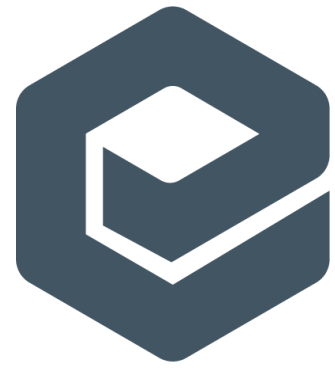

United. Inspired.

Performance unites us, innovation inspires us,
and commitment drives us to keep moving forward.

Count on Epiroc to deliver the solutions you need
to succeed today and the technology to lead tomorrow.
