

# Shaping the Future of Innovation in Europe

11<sup>th</sup> European Innovation Summit

Helen Spence-Jackson | 4 February 2020

 @ClimateKIC

# Our 10-year track record in climate innovation

**1600+**  
climate-positive  
start-ups incubated

**€3.4bn+**  
climate funding  
leveraged

**595**  
new products  
and services

**€550m+**  
total value of  
funds managed

**391+**  
formal partners,  
across 28 countries  
(including *Linked 3<sup>rd</sup>*  
*Parties*)

**>€1bn**  
investment attracted  
to start-ups

**>2300+**  
full-time jobs created  
since 2010

**44,000**  
participants in our  
education activities

10 years of experience has taught us that achieving the systemic change we need requires a different order of innovation.

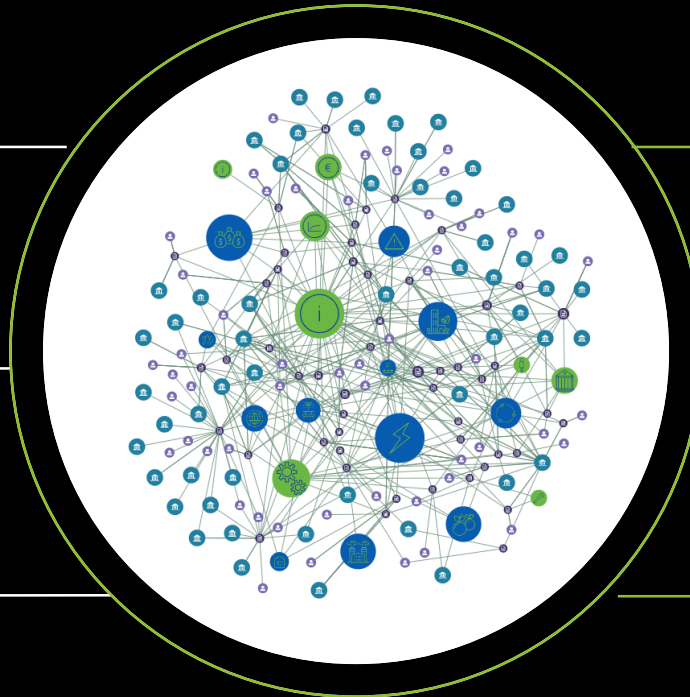

Incremental

System innovation

Transformational

Single projects and incremental change

Siloed and fragmented activities, often focused on technological improvements

Portfolio of connected innovation projects that learn from each other

Wide appreciation of change levers

A new model of innovation is needed

We need a **new model of innovation** to tackle the climate emergency – we need innovation to catalyse **systemic change**.

...triggering massive leaps in decarbonisation and resilience.

Connected innovations...

...to transform places, people, sectors and value chains...

...acting simultaneously

...across multiple levers of change

Policy and regulatory frameworks

Education and skills

Funding and finance

Behaviour

Markets

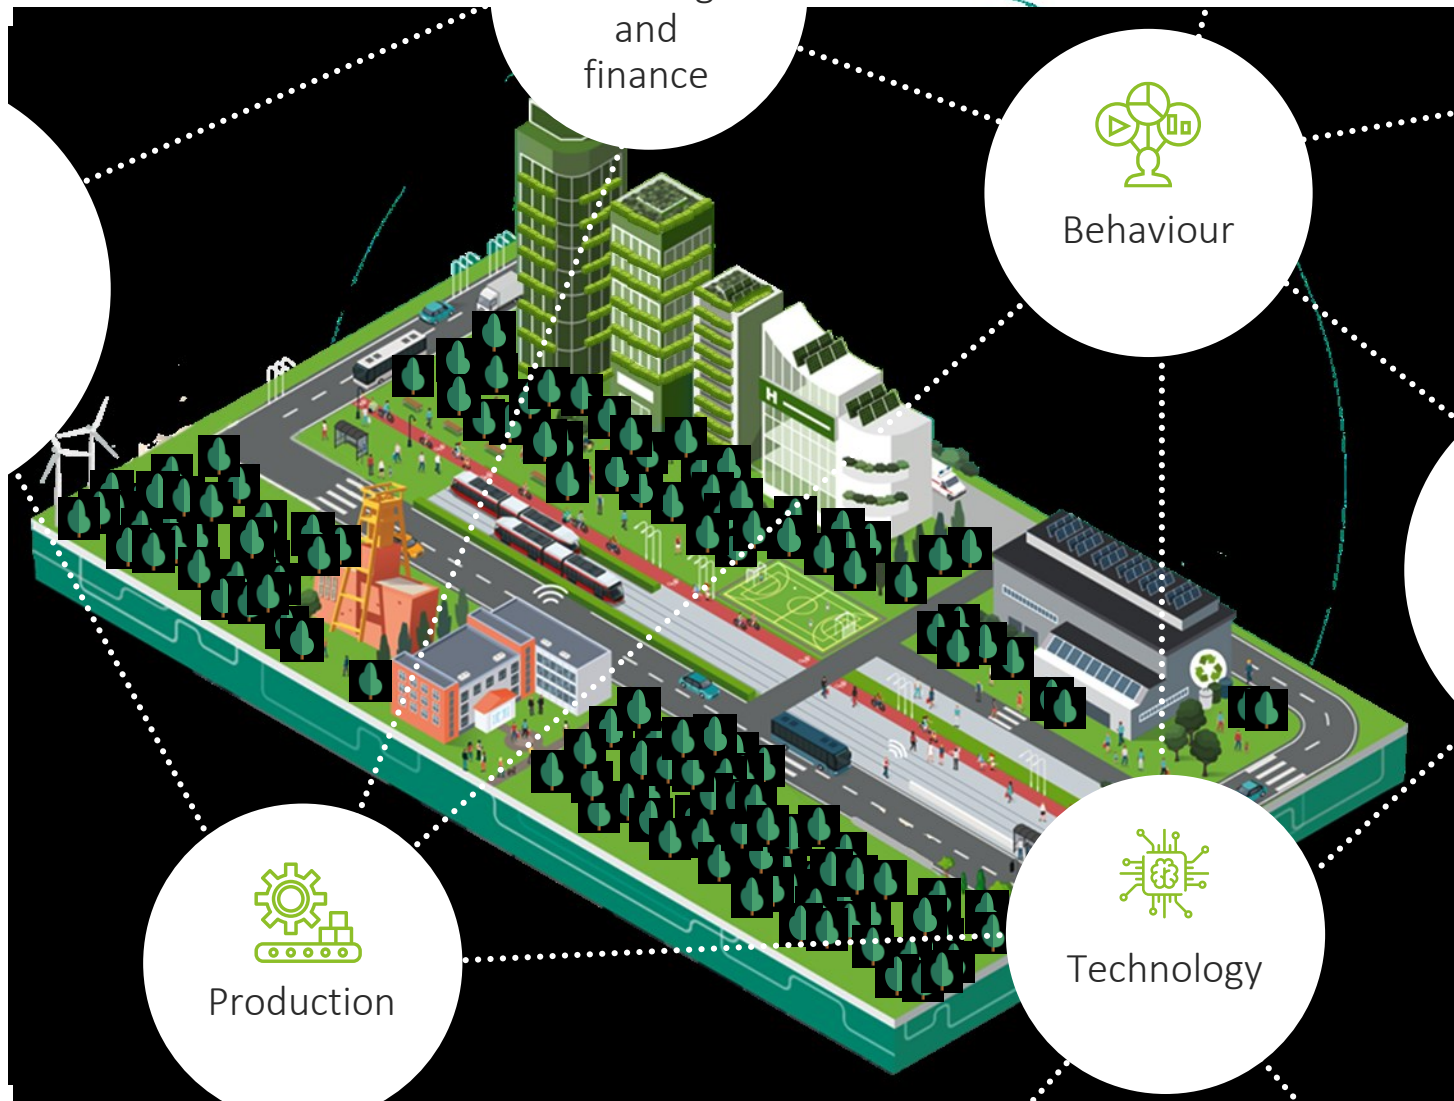

Citizen participation

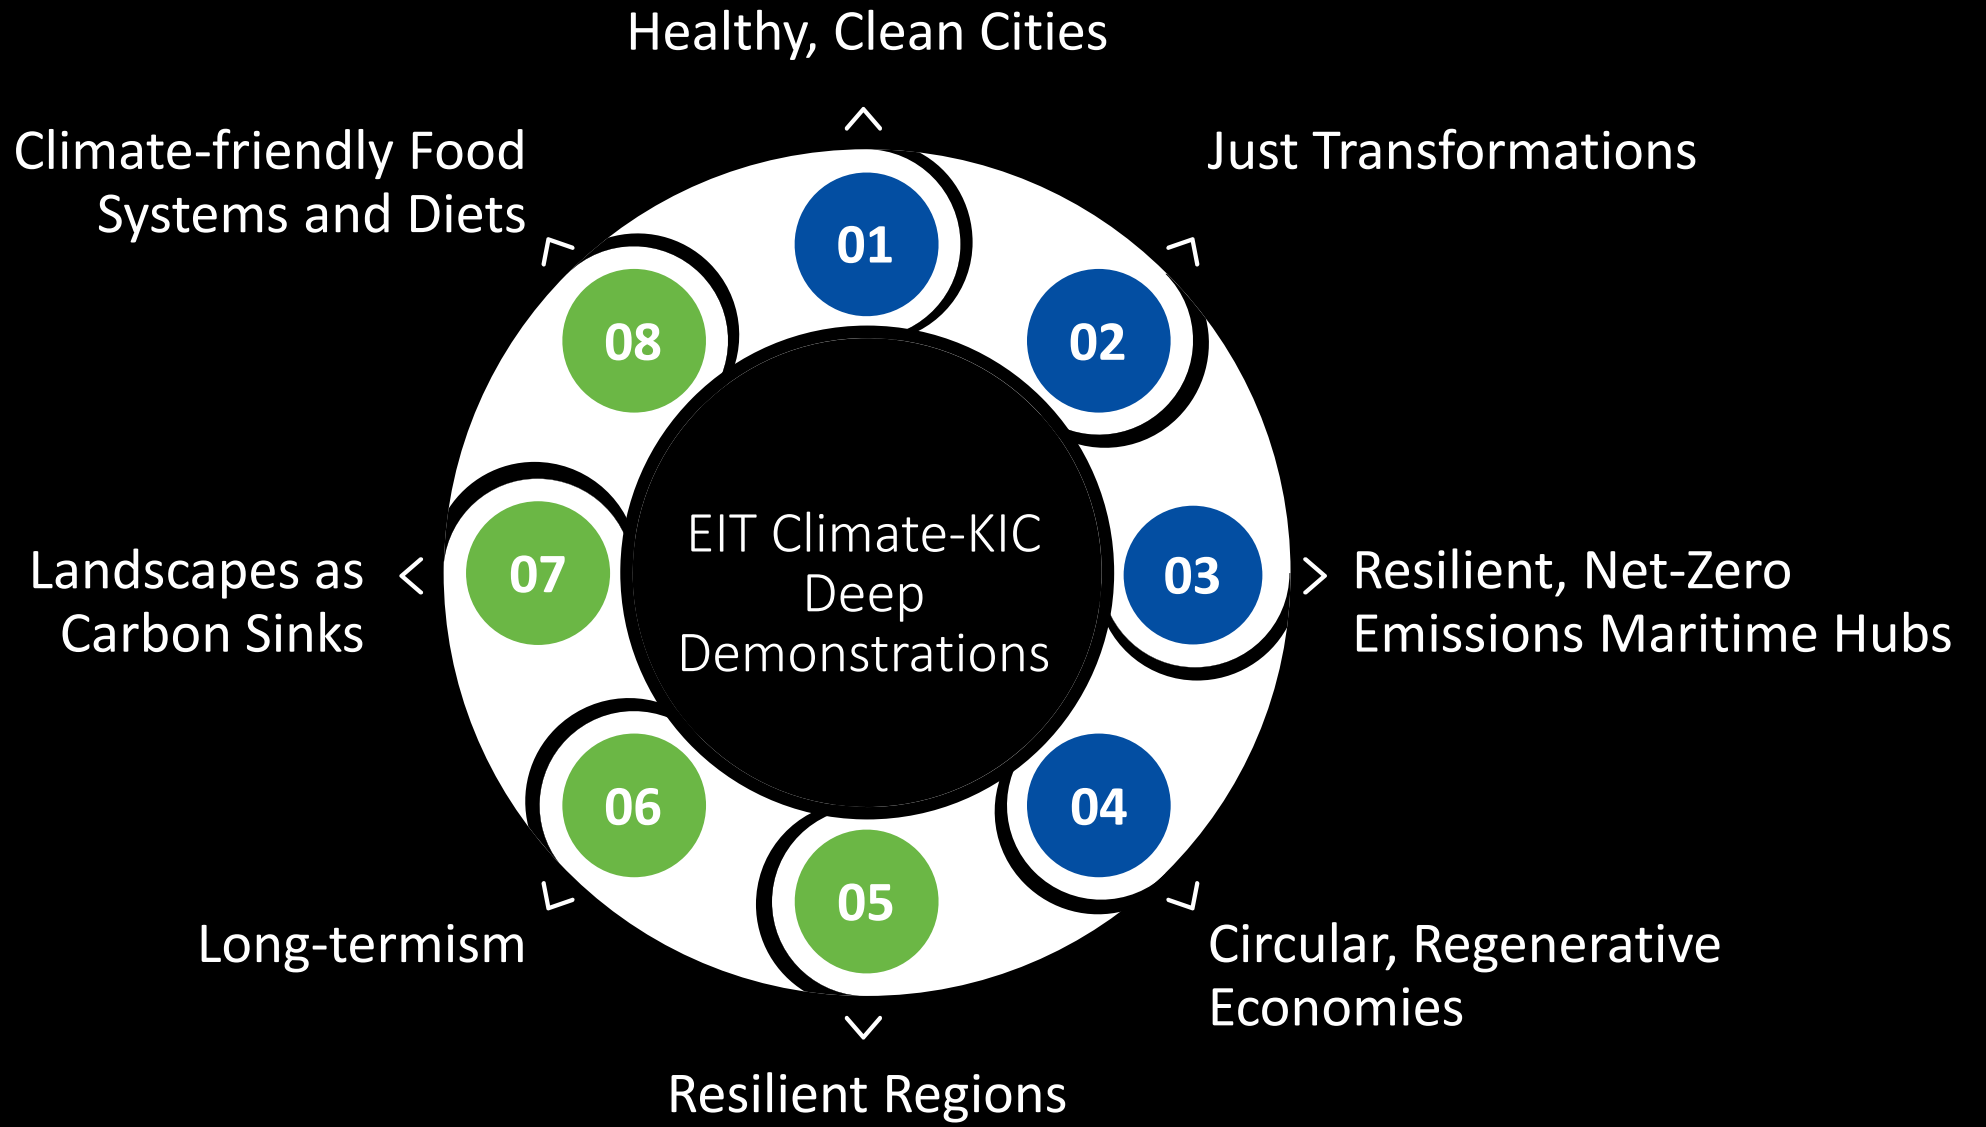

Production

Technology

..... ● First wave ● Second wave
